**DEATH CERTAIN      DISABILITY POSSIBLE**  
**A NEW POLICY**

Work like this, John Sample, age 35, pays \$29.16 per thousand, which will be reduced by 1917 dividends \$5.22, upon payment of second premium, making the net cost \$24.42. Policy will contain total and permanent disability benefits, which means, first, waiver of premium payments on policy during disability, and company will pay the insured \$100.00 per year while disabled, then the face of policy, \$1000.00 at death; disability means loss of eyesight, loss of both hands, loss of both legs, loss of one hand and foot, loss of mind, total loss of body power from paralysis or disease.

Tires that did not require setting in thirty years—on a Studebaker

WHEELS are the life of a wagon. Hubs, spokes, felloes and tires of the best materials, put together by skilled workmen, go into every Studebaker.

What is the result? Mr. William H. Horton, of Nineveh, N. Y., writes that the tires on his thirty-six year old Studebaker farm wagon did not need resetting in thirty years—and the wagon was in use every day.

We can prove to you that this is not an exceptional Studebaker wagon. There are thousands of Studebaker wagons in use today that are forty years old and more. And that have cost their owners little or nothing for repairs.

Come in and look over our stock of Studebaker vehicles. Let us show you how well they are built.

Studebaker wagons are sound investments, every time

**DRAFT ARMY**  
 Will Be Placed in 16 Camps Instead of 32 as Previously Planned—Change Upsets Tentative Plans For Location of Cantonments.

Washington, June 1—Important revisions in the plan for training the war army have been made by the War Department, which announced today that the half million men to be called to the colors in September will be concentrated in sixteen cantonments instead of thirty-two and that many of the forces would be put into tents instead of wooden barracks.

Lack of funds, material, labor and transportation facilities, Secretary Baker, said were determining influences in the decision to reduce the number of cantonments. The previous plan to build thirty-two of the camps was reached, it was explained, after Congress had appropriated \$77,000,000 on the theory that there would be only sixteen.

For a time the larger number seemed practicable, but that would have made a much greater demand on the overtaxed resources that the government commands.

Although the change will upset all the tentative plans for camp location made by department commanders, it is not expected to delay beyond September 1 the mobilization of the great draft army. Four of the sixteen cantonment sites, provided for under the new plan, already have been selected and choice of the others is expected soon.

Secretary Baker indicated that the building would proceed as rapidly as possible. The four sites selected are at American Lake, Wash., Atlanta, Ga., Ayre, Mass., and Wrightstown, N. J.

Secretary Baker said that forces in excess of those who would be taken care of in the sixteen camps would be placed under canvas.

This was taken as referring to National Guard division, although the militia bureau has received no instructions in this regard.

There is no indication of an intention to alter the plan for formation of sixteen divisions of the guards. The question of bringing these up to war strength probably will not be settled until selection of men for service in the draft army begins. It is possible that it will be found better in that time if the state forces have not been recruited to full strength to consolidate a smaller number of divisions, but under the law, either the regulars or guards can be built up from men from the selective list if that is desired.

Meanwhile the national guard units of the eastern portion of the country will be drafted into the federal army on July 15. All of the guard units will have been drafted into federal service by August 5.

Presumably the best equipped and recruited forces will be made ready first for duty abroad, but there has been no announcement as to the plans to be followed. More than 60,000 guardsmen are now engaged in police work, guarding bridges, factories and other quarters, and that work will have to be kept up.

**AN EXCELLENT PRINCIPAL**

The re-election of Prof. C. S. Dale on Thursday night by the Board of Education of the Maysville Public Schools as principal of the High School department, shows that the Board was greatly pleased with his work during the past school term. Mr. Dale, during the past year, has made a splendid principal and we believe that the Board made no mistake in re-electing him. This is Mr. Dale's sixth election as a member of the faculty of the schools, twice as a teacher in the grades, twice as teacher in the High School and twice as principal of the High School. He is a very popular man and his re-election is well deserved.

**WILL ARRIVE TODAY**

Rev. Locke White, the new pastor of the Central Presbyterian Church will arrive this afternoon and will conduct the regular services tomorrow. Every member is urged to be present and the public cordially invited.

It will be Missionary Day at the Sunday School when a short program will be given and the boxes collected and opened.
